From our Baronesses

Greeting onto the populace of Mons Tonitrus,

As we hit the one-year mark as your Baroness', we are in so pleased that you have remained healthy and committed to our community. This has certainly been a unique time for us all. While our normal activities are anything but, we have found ways to continue to connect and support one another. From some of our more introverted members learning to teach online and lead groups, to courts via Zoom. The Yule season approaches, and we look forward to a unique way of celebrating it this year, with the Strong Oak recording music and the chefs of the community pulling together to share recipes for each of us making and feasting united in the ethereal realm.

We are hopeful that come the new year there will be a reduction in the pandemic and a way for us to slowly begin to come together in person again.

While this is anticipated we realize that there may be some restrictions and greater planning will need to go into the fewer events. Please be patient with us and those who will be doing their best to make those opportunities available to you.

This has been a learning experience for us, and we hope to serve you in new and inventive ways as we move forward. Remember to reach out to each other so that no one feels alone or abandoned. While we cannot do this in person phone, text, and email can be of great comfort in these most unusual days. We are here to support you if you should ever need us as well.

Yours In Service Always,

Mariette Dominique du Beau and

Ilaria Volpe Della Scala

Message from our Kingdom Arts and Science Minister, Mistress Magdalen: Kingdom A&S Competition.

As most of you know, the previously scheduled Kingdom A&S Competition for September 26, 2020, is CANCELLED in accordance with Society mandate due to the current community health crisis. Once we are able to return to in-person events within the Kingdom, we will notify the Populace when and where the next competition will be after consultation with the Crown of Atenveldt.

Each month we will have a different focus on the Arts and Sciences. October's Focus will be on A&S and the Harvest. That includes ANYTHING you have made in the colors of the season, anything you have grown, items you have made for Fall festivals and celebrations; as well as Literary and Performing Arts, and Brewing and Culinary Arts suitable for October and the Autumn Tide. If you have suggestions of which A&S aspects we should look to in future months, please feel free to contact me at the email address of as-min@atenveldt.org.

Renaissance Cooking Methods

The nobles can sometimes get tired of eating the same dish over and over again, and as their homes or castles have an abundance of ingredients, they are commonly adventurous when it comes to what they are going to eat for lunch or dinner. They, along with their chefs, started to create different dishes during that period, which led to the birth of popular dishes like pasta and sausages. Although these dishes may have already existed, and the nobles may have eaten these while visiting other countries, the rich people have created their own versions and made them staples in Renaissance dining. Kitchen facilities, processing methods, types of cooking, kitchenware, garbage disposal, spicing, the use of molds, coloring, imitation food and kitchen humor are all found in these pages.

Some authentic recipes are included, as well as a list of dishes that were international favorites and there is also an analysis of the regional cuisines of western Europe. Much more is also included: vegetarianism, food taboos, seating arrangements, serving and dining etiquette, the medieval idea of nutrition, dining rooms and their decor, and the connection between food and religion.
